

Assumed Reinsurance Commutation and Processing Services

Due to industry and market changes, many insurers have elected to discontinue the use of assumed reinsurance. Insurers often have limited in-house resources and expertise available to manage the remaining reinsurance exposures.

Provide professional management and mitigate long tail exposures

Inpoint's assumed processing services provide management with the ability to focus on core operations while having the confidence their exposures are being professionally managed and mitigated. Our team of experienced professionals contributes to your success by delivering expertise in the following areas:

- Developing proactive commutation strategies to actively mitigate long tail exposures and allow for a higher level of certainty regarding future risk
- Quickly accessing extensive international and domestic industry contacts to expedite commutation discussions
- Providing a contingency plan for the risk of loss of institutional knowledge on the discontinued business
- Providing an industry leading hosted assumed reinsurance system at a fraction of the cost for a company to license directly
- Providing professional claims adjudication and contract interpretation to ensure no liability for invalid reinsurance claims

Business statistics

- Total assumed liabilities administered \$2.0B
- Number of open claims > 10,000
- Portfolios currently under management 18
- Commutations completed 219
- Value of commutations completed \$654M
