

Aon's GDPR Prepare & Protect

Helping organisations to be GDPR ready

How will the EU's General Data Protection Regulation impact your organisation?

The EU's General Data Protection Regulation (GDPR) comes into effect on the 25th of May 2018, enforcing strict new measures for any organisation globally handling the personal data of EU individuals.

Organisations have steps to take to comply with GDPR and meet the ongoing data privacy rights of their clients and employees.

Failure to comply may result in enforcement action, including fines of up to €20 million or 4% of your organisation's annual worldwide revenue, whichever is greater.

Actions your organisation needs to consider

- Understand where and how you use and store personal data of EU individuals
- Review your existing security controls
- Assess your third parties' personal data security standards
- Be prepared to report data breaches within 72 hours

A modular solution that helps organisations prepare for and manage financial, regulatory and legal risks associated with processing personal data under the EU GDPR.

GDPR Readiness Assessment

Assists organisations to understand and mitigate their data protection risks in accordance with GDPR

GDPR Impact Analysis

Models the impact from a data breach under GDPR to provide a clear picture of risk exposures

GDPR Insurance Endorsement

Acknowledges the GDPR in a qualifying cyber policy

GDPR Incident and Claims Response

Provides incident response, digital forensics and claims handling services following a breach under GDPR

Aon's GDPR Prepare & Protect can help your organisation to:

- Demonstrate and evidence GDPR compliance readiness and risk maturity
- Model the financial impact from data breaches under GDPR and understand cyber risk exposures
- Plan for and respond effectively to a cyber attack to limit business disruption and financial impact
