We have combined our experience as one of the largest and most respected marine insurers in the Lloyd’s market with our expertise as a leading insurer of professional indemnity risks, creating a policy focused exclusively on the needs of marine related professionals.
Beazley’s Marine Professional Indemnity Insurance policy protects a wide range of organisations involved in marine trade and in shipbuilding – from marine surveyors to shipyards – against financial liability arising from a breach of their professional duties committed in the conduct of their business. It also covers the costs and expenses of defending such claims.

These risks are growing in scale and complexity and the importance of robust professional liability cover is growing proportionately. If a third party suffers loss or damage as a result of a mistake made by a professional or the failure to exercise the required skill in providing a professional service, the financial consequences can be devastating.

Target
We protect the interests of professionals including:

- Average adjusters
