

# Aon Professional Risk Solutions (PRS) Panel

The PRS Panel was developed to be the premier brokerage solution for the negotiation and placement of Network Security & Privacy Liability, Technology Errors & Omissions, and Miscellaneous Professional Liability coverage targeting clients with less than \$1 Billion in revenue or that fit the established risk profile. We consolidated our broking experience, product focus, technology and market relationships to establish a carrier panel that will provide competitive and comprehensive coverage based solutions exclusively for our clients.

## Product Proficiencies

Our product proficiencies include Network Security & Privacy Liability (Cyber), Technology Errors & Omissions (Tech E&O), and Miscellaneous Professional Liability (MPL).

## Specialization

The PRS team consists of 60+ global dedicated professionals. U.S. brokerage specialists are located in Boston, Chicago, Denver, Miami, New York, and San Francisco. In addition, clients have access to dedicated claims professionals and Stroz Friedberg, Aon's cyber risk consulting firm (additional engagement agreement and fees may apply).

## Strong Market Partnerships

The PRS team works with ARS colleagues nationally to create industry leading risk transfer solutions for our clients. The PRS team negotiates approximately 1,300 client placements annually for clients under \$1B in revenue, consisting of \$100M of written premium, and over \$400M of written premium for all client size segments.

## Market Segments

Brokerage services for these products are available to all industry segments. The PRS Panel was specifically designed for clients with under \$1 Billion of annual revenues or clients that fit the established risk profile.

## Aon Advantage

Competitive pricing, comprehensive coverage, and a streamlined process available to Aon clients.

## Additional Capabilities of PRS

Additional capabilities include: Media Liability and other tailored Errors & Omissions coverages. PRS has the ability to negotiate placements for clients with complex risk profiles and annual revenue over \$1 Billion outside of the PRS Panel including first-of-its-kind enterprise-wide Aon Cyber Enterprise Solution®.

## Claims Advocacy Fees and Structure

As part of the PRS Panel launch, we are implementing a Claims Advocacy Agreement ("CAA"), whereby Financial Services Group's Legal & Claims services will be available to clients under two structures (of which our clients must select one):

1. A client has access to unlimited FSG Legal & Claims hours, but any claims recovery shall be subject to a 2% claims recovery fee;
2. A client has access to 10 hours of annual FSG Legal & Claims service with no charge, and hours above the cap will be subject to an hourly rate (\$150 - \$600 depending on who is engaged).

## We're here to empower results
