

Aon Environmental Services Group

Integrated and comprehensive insurance coverage is fundamental to a robust environmental risk management program.

Aon is committed to supporting our clients by providing them with customized environmental risk management solutions which include appropriate due diligence and risk control measures to help them manage their environmental exposures and liabilities.

Through our dedicated Environmental Insurance Specialists and the deep industry knowledge they possess in the areas of environmental engineering, environmental law, environmental underwriting, and claims/litigation support, Aon is able to provide comprehensive environmental insurance coverage and unparalleled service to clients.

Benefits of Working with Aon

- Constant investment in new ideas and solutions
- Local access to the top-tier markets in the world
- The strength of the world's leading broker on your side
- Worldwide brokerage platform providing industry leading service wherever you need it
- Dedicated environmental claims advocate

Environmental Risk Solutions from an industry leading, experienced team of Environmental insurance specialists

Aon Risk Solutions' Environmental specialists go beyond traditional brokerage activities to help assure that insurance and risk management programs meet the needs of clients on a global basis. We are recognized by environmental insurers, fortune 500 corporations, private equity and M&A firms, insurance underwriters, and analysts as having the deepest bench strength and most expansive knowledge and relationships in the industry.

Aligning Clients Needs with Knowledgeable Teams and Innovative Solutions

Aon Environmental Services Group provides:

- One of the industry's most experienced team of environmental insurance specialists, including over thirty professionals in the U.S. supplemented by an extensive international network.
- Industry-recognized environmental experts including Ph.D.'s, environmental engineers, lawyers, and former underwriters and claims adjusters.
- Experience gained from serving thousands of clients in more than 120 countries.
- The ability to understand and address your environmental risks through coordination among Aon's specialized practice groups, including Casualty, Construction, Energy, Healthcare, Life Sciences, Mergers & Acquisitions, Property, Professional Liability, Real Estate, and Transportation and Logistics, among others.
- Market-leading creative solutions, including Aon's Environmental EdgeSM solution — designed to offer protection against catastrophic losses at the parent-company level including corporate "veil piercing" or successor liability.
- Aon's Environmental Risk Analysis — a risk quantification service that identifies and quantifies your environmental exposures.
