- Logging and lumbering fire damage and vehicle damage

### Customer Services

Many aspects of the forest products industry involve inherently dangerous activities. We focus primarily on adherence to good safety practices. Aon risk control consultants work with you to identify potential causes of loss and recommend ways to minimize your exposure to risk. Regular calls at your business location or job site are a standard part of our service on qualifying accounts.

### Lines of Coverage

- |                        |              |
|------------------------|--------------|
| • Workers compensation | • Equipment  |
| • Umbrella             | • Automobile |
| • General liability    | • Property   |

### General Liability

Amendment – logging and lumbering – accidental over cut of timber, provides coverage for property damage arising out of the accidental over cut of timber. Occurrence limitation and participation (deductible) apply.

we have you covered
