

Risk, Reinsurance and Capital Solutions for the Healthcare Industry

The **U.S. healthcare industry** is rapidly transforming with a focus on engaging patients, population health management, integrating and coordinating care through medical homes and accountable care organizations. This is shifting the risk and incentives for achieving financial and clinical outcomes to individuals and providers of medical services, creating the need for more information technology tools and transparency. As new populations are being covered for healthcare and new entities are taking financial risk, the industry needs partners that can offer comprehensive support and effective solutions.

Aon Benfield has the experience, expertise, scope of services and analytical capabilities to help our clients succeed and identify new opportunities for growth while dynamic changes challenge the healthcare market.

Our solutions and services are tailored to fit each client's needs and goals. Our value proposition to each client includes the five Aon client promises:

Aon Benfield

is the **largest specialty practice group broker in the Accident, Health and Life** space with extensive in-house actuarial expertise and proprietary analytical capabilities and data.

Aon Benfield’s Accident, Health and Life team has the industry expertise to be a trusted advisor as the healthcare market continues to change. We continually monitor the market, regulatory changes and analyze data to understand cost, utilization and other industry trends to proactively determine how they impact our clients.

Aon Benfield provides services to insurance companies, health plans, HMOs, provider groups, ACOs, reinsurers, captives and other risk taking entities. A thorough understanding of the client’s goals combined with the resources to analyze the client’s risk exposures, reinsurance structures and capital needs enables Aon Benfield to deliver innovative solutions that optimize program performance and terms.

We're here to empower results
