

Transportation and Logistics Practice

Aon's Transportation and Logistics Practice is the leading provider of insurance solutions to the nation's road transportation industry. We have developed a range of risk management services that are designed to address the specific challenges faced by the road transportation industry today. Our centralized, national Transportation and Logistics Practice is dedicated to improving client programs and the cost of risk for motor carriers as well as other commercial transportation companies. Aon's Transportation and Logistics Practice specializes in all major segments of the road transportation industry, such as trucking, logistics, motor coaches, transit bus systems, and school buses, as well as more niche segments, such as last-mile delivery, LTL, courier, and livery/taxi service fleets.

Reduce your downtime and costs to stay competitive

Commercial property and liability

Every trucking company is exposed to risk. If not managed properly, risks such as high insurance costs, collisions, moving violations, cargo security/losses, and driver retention can reduce your overall competitive edge. Our experts can help you manage risk within the road transportation industry with a variety of risk control solutions.

Risk control support

Aon's in-house risk control experts can help you by providing:

- CVOR/carrier profile reviews
- Fleet safety gap analysis
- Developing fleet safety and occupational health/safety programs
- Due diligence or mock facility audits
- Defensive driver training
- Fleet benchmarking

Your commitment to risk control will not only make your company more appealing in a tough market but may result in lowering your overall cost of risk year over year.

About Aon Risk Solutions Canada

Aon Reed Stenhouse

Aon Reed Stenhouse Inc, operating under the brand name Aon Risk Solutions, is Canada's leading insurance brokerage and risk management services firm. We serve an extensive client base, handling more than \$2 billion in annual premiums on behalf of our clients.
