We Understand the Unique Issues of Pooling

As brokerage and consulting specialists, we understand the issues driving the environment in which pools operate—evolving member exposures, a desire for the highest quality services, the need for cost stability, creation of a true partnership, regulatory uncertainty, and administration, branding and membership.

We further understand that changing business and insurance market conditions require a regular re-evaluation of pooling program structure and strategies. Cost pressures and the need to be competitive mean pooling programs must remain efficient yet provide the coverage members require. Forecasting funding requirements and the manipulation and analysis of claims and exposure data are also critical.

Our Unique Offering

Pools require a risk management partner that can do far more than just place insurance policies. The risk retention and transfer solution must be tailored to the unique financial, coverage and service needs of each pool. Only Aon offers the distinct combination of brokerage, consulting and 21st–century technology services and products for both Property & Casualty and Health & Benefits that will help your pool excel now and in the future.
