Aon Switzerland unveils BVG/LPP app

New app for iOS and Android offers comprehensive overview of occupational benefits in Switzerland

Zurich, 23.01.2020 - “The newly launched Aon BVG/LPP app is the quintessential reference guide to occupational benefits, providing information and the latest news to industry professionals and anyone with an interest in the field. Users receive updates about the latest happenings in the Swiss pensions sector,” states Willi Thurnherr, CEO Retirement & Investment, Aon Switzerland.

“Occupational benefits have been a core part of our business for more than 80 years,” says Willi Thurnherr. “Not only can our clients count on our expertise and experience acquired over several decades; they also benefit from our industry intelligence, in a domain that is evolving all the time.”

“The necessary pension reforms in Switzerland have been at a standstill for years,” says Thurnherr. “Politicians try and try again even as employers, trade unions and the Federal Council propose various new ways forward,” says Thurnherr. “These plans have given rise to heated debates in both political and industry circles.” He is convinced that “now is a good time for Aon, as a leading service provider in the field of occupational benefits, to launch a new app for experts and others interested in these developments.”

“The Aon BVG/LPP app is innovative in so far as existing apps do not update their information and relay solely key figures or legal provisions. Our app is wholly dedicated to second-pillar benefits. In addition to the legislation, it offers regularly updated media stories, plus court rulings and an overview of important events,” adds Simonetta Chiaravalloti, Marketing Leader, Retirement & Investment, Aon Switzerland.

**What does the app offer?**
The app provides news and theme-based insights relating to occupational benefits. It features a range of relevant articles from media sources in addition to various studies and information from the industry and the world of politics. A calendar showing the main training sessions and key events gives an up-to-date overview of the industry. The app likewise offers useful data such as the latest relevant legislation, a full range of key figures on the occupational benefits industry, OPSC directives, trade-body guidelines and accounting procedures – along the same lines as Aon’s popular *Handbook of Occupational Benefits*. It also has full text-search capabilities, which makes it easy to find the information in the legal articles contained in the handbook. In addition to the Manual, FSIO press releases are listed in full, and links are provided to the most important court rulings on occupational benefits in Switzerland. Finally, the app contains information about the discount rates currently applied in international accounting standards.
The Aon BVG/LPP app offers information organised under the following topics:

- News
- Events
- Legal themes
- Reports
- Key figures

The app can be downloaded from the App Store or Google Play. Further information is available at www.aon.ch/bvgapp
