Knowledge and understanding

The Pensions Regulator requires trustees of pension schemes to ensure they have the skills, knowledge and understanding needed to perform their roles effectively.

Our courses

Whether you are new to pensions (with 6 months to build up the relevant knowledge and understanding) or have some experience; and whether you manage Defined Benefit or Defined Contribution schemes, our courses aim to support you in building your knowledge and understanding.

We offer:

- Three Defined Benefit courses:
 - Part 1 - for new trustees
 - Part 2 - for those who have attended Part 1, or who have more experience
 - Trustee Essentials – for those looking to combine Parts 1 and 2 in quick succession
- Two Defined Contribution courses:
 - Defined Contribution - for trust-based schemes; and
 - Pension Governance Committee – for contract-based or master trust arrangements

Defined benefit courses

Defined Benefit Part 1

This introductory course is suitable for new trustees and as a refresher for those with more experience. It will help you gain a clear understanding of your responsibilities as a trustee.

Defined Benefit Part 2

This course is suitable for more experienced trustees who have either already attended the Defined Benefit – Part 1 course or have some experience as a trustee of a defined benefit scheme. It assumes an understanding of the basic concepts of trust law and trusteeship and some knowledge of asset classes and investment markets.

Defined Benefit Trustee Essentials

We are aware that some trustees of defined benefit (DB) schemes like to attend our Defined Benefit Part 1 and Part 2 courses in quick succession.

That's why we created Defined Benefit Trustee Essentials, which combines both parts into one course over two successive days.

This is a residential course and includes accommodation and meals during the course.

Defined contribution courses

Defined Contribution

This course is aimed at trustees of a defined contribution scheme or a hybrid scheme with a defined contribution section.

It provides a practical look at the key issues and decisions that trustees face when responsible for a defined contribution scheme and considers trustees' responsibilities both from a legal and best practice perspective.

Pension Governance Committee

Many employers operate contract-based and master trust arrangements (Group Personal Pensions for example), and are increasingly establishing pension governance committees to ensure these arrangements are well-run.

This course is designed specifically to meet the needs of governance committees, identifying best practice and ensuring committee members can carry out their role efficiently.

It is also suitable for HR professionals supporting contract based defined contribution schemes.
