

# **UK Week in Markets**

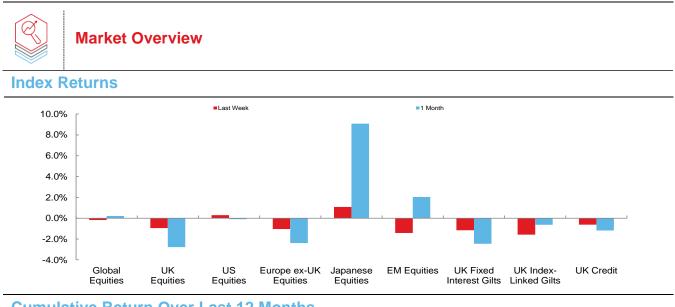

# Week ending 19 September 2021

# **Key News and Events**

- Democrats in the US House of Representatives suggested scaling back tax rises proposed by US President Joe Biden to fund a \$3.5tn programme of government investment in childcare, education, healthcare and green energy. The House Democrats proposed for a corporate tax increase from 21% to 26.5% and capital gains tax increase from 20% to 25%, less than the earlier proposed rates rise to 28% and 39.6% respectively. They also proposed a 3% surtax on earnings of more than \$5m per year.
- The US, UK and Australia signed a trilateral security pact that will enable Australia to get nuclear-powered submarines, a move aimed at countering the increasing threat of China in the Asia-Pacific region. Meanwhile, the UK delayed again post-Brexit border checks on food and farming imports from the European Union (EU) until mid 2022, citing supply chain issues due to Covid-19 disruptions. The EU has been implementing full checks on goods sent from the UK since the start of 2021.
- UK annual inflation touched its highest level since 2012 as it rose to 3.2% in the year to August, up from the previous month's reading of 2%. The sharp rise can be attributed to a rise in food, restaurant and transport prices.
- Meanwhile, the US Food and Drug Administration (FDA) authorised third Pfizer/BioNTech vaccine shots to people aged over 65, healthcare workers and anyone at high risk of contracting the virus but rejected the application for all people aged above 16.

# About Aon Global Asset Allocation

Where are we in the economic cycle? What is the relative value of different asset classes? How are technical factors, such as regulation, impacting prices? Aon's Global Asset Allocation team continually asks and answers questions like these. We use our findings to help clients make timely decisions about asset allocation in their schemes' portfolios.

With over 160 years of combined experience, the team is one of the strongest in UK investment consultancy today.

Our experts analyze market movements and economic conditions around the world, setting risk and return expectations for global capital markets.

The team use those expectations to help our clients set and, when it's right to do so, revise their long-term investment policies.

We believe that the medium-term (1–3 years) has been under exploited as a source of investment performance. Maintaining medium-term views that complement our long-term expectations, we help our clients to determine when to make changes to their investment strategy

#### About Aon
